20:30  
CET

### CM | Margin for net long positions<sup>2</sup> and uncovered net short positions<sup>1</sup>

Initiation of AMEM (Additional Margin Emission Market) for net long positions and uncovered net short positions. Execution is done within overnight margin call/ margin withdrawal. Expiring FEUA positions no longer considered in EoD Span Margin.

<sup>1</sup> Net short positions refer to the projected stock of EUAs in SMSS on delivery day „E+2“ and include EUA certificates of transfers, spot and FEUA trades (as well as OEUB on „E - 5“).

<sup>2</sup> Net long positions consider only FEUA net long positions.

E + 1

**CM | EUREX reports CD710 with report date E+1**

Reports contain the payment amounts of Clearing Member for E+2.  
Payment details can be found in PRD & PRS created on E+1 between 5 – 6 pm for E+2.

06:00  
CET00 - 24  
CET**NCM | Registry Transfer Request (RTR)**

A RTR can already be instructed to have the bought allowances on E+2 on the buyers own UR account.

08:00  
CET**CM | Processing of overnight margin call/ withdrawal**16:00  
CET**NCM | Deadline for balancing** !

Deadline for balancing of net short position at ECC internal account via trading or transfer of certificates within Union Registry. All trades after 16:00 CET won't balance the net short position on delivery day. After 16:00 CET NCM enters ECC default process.
