

Amendment of Emissions Secondary Market Fees

Dear participants,

ECC hereby informs about changes to the fees on the emissions secondary market.

The following changes will come into force on 01 September 2021:

- For spot-future spread deals, instead of the futures leg, the spot leg will now be free of charge. The futures leg will be charged with the standard clearing fee.
- The following rebate programmes will cease to be offered: Low Premium Options Rebate.

The adjustments have already been published in the List of Services and Prices of ECC AG on 21 July 2021 ([LINK to the current EEX price list](#)).

Please also note the corresponding adjustments to the EEX fees ([LINK to the current EEX price list](#)).
