Information

Member Simulation

ECC recommends its members to test impacts within their applications and processes in the simulation environment. A simulation environment for release testing is already available.

Update of documentation

We kindly ask all Clearing Members and participants to adjust their systems and internal processes to support the changes in Member reports, especially field changes (field name, field description, field length) for CI042 (Margin Call Report).

All details about the release can be found in the documentation in the Member Section of Deutsche Börse Group under the following path:
