

Announcement of fully enhanced ECC Limit Report for Spot Limits

Summary

As announced in the [ECC Clearing Circular 06/2026](#) and [ECC Clearing Circular 09/2026](#), we are pleased to inform you that the enhanced ECC Limit Report for Spot Limits (LRD) is now fully deployed and operational.

The report provides a consolidated view of limit information with the following access scope:

- Institutional Clearing Members can view all limit data managed by their entity, including limits of their Non-Clearing Members.
- Non-Clearing Members and Direct Clearing Participants can view limit data associated with their company.

With this full deployment, the Limit Report now serves as the central reporting source for limit monitoring. Consequently, the email notification service provided to Non-Clearing Members for limit updates will be discontinued as of 18th May 2026.

The report is distributed three times per day at 09:45, 16:15, and 18:15 CE(S)T via the subscribed delivery channels. A sample report, the detailed report structure, and the description of the report fields can be found on the [ECC website](#).

We encourage all interested parties to subscribe to the ECC Limit Report for Spot Limits (LRD) via the [ECC Member Area](#).

To apply for a user, please use the Customer Portal via your company's central coordinator or their deputies. For support with user related matters, please reach out to memberreadiness@ecc.de.

Thank you to all participants for the feedback provided during the rollout period.

In case of any questions do not hesitate to contact us.
