Enhancement of NOREXECO Pulp Products

**Summary**

From **21 March 2016** NOREXECO ASA (NXE) will enhance its existing product range for the asset class Pulp by introducing additional maturities for the existing products. These additional maturities will be also cleared by ECC.

This Clearing Circular contains information regarding the product setup.

## Product Setup Enhancement

The number of already existing NXE Pulp Futures maturities will be extended from 20 to 36 consecutive months for Pulp NBSK Month Futures as well as for Pulp BHKP Month Futures. Therefore the current and the next 35 months are set up as delivery periods in the ECC Clearing System and will be available for clearing by ECC from 21 March 2016:

Eurex Product Code	ISIN	ECC Product Group	Name
NFNM	NO0010437619	NXE_FT_PULP_NBSK	NXE Pulp NBSK Month Futures
NFBM	NO0010437627	NXE_FT_PULP_BHKP	NXE Pulp BHKP Month Futures

## Preconditions for Participation

The new maturities will be automatically available for all Trading Participants who are already admitted for NXE Pulp Futures.

For new members, all corresponding forms are available for downloading on the ECC [website](#). Participation in trading requires an application for recognition as a trading participant in NXE Financial Futures (NXE\_01) and, if necessary, a current NCM agreement (NCM02) including the “NOREXECO ASA” market or “All Markets”. NXE Trading Participants who have not been registered with ECC so far have to complete the admission process as a Non-Clearing Member including the ECC KYC process.
