► **ECC Clearing Circular 25/2016 | 2016-05-26**

Change of ECC FTP Server

Summary

From **01 July 2016** onwards, ECC will change its FTP server for spot markets reports and invoices. Please note that the Common Report Engine for derivatives reports is not affected by this change.

In this Clearing Circular, we would like to provide information on the new FTP server, access details and testing possibilities.

Background

ECC will change the ECC FTP server on 01 July 2016. From that time on members will only have access to that new FTP server. There will be no other changes for members apart from the access details:

- Members will have access with their current login details
- All reports and files will remain unchanged

Simulation

All ECC members will have the chance to test their access to the new FTP server from 30 May to 15 June 2016 with using the following details:

Simulation phase:	30 May – 15 June 2016
Address:	ftpssimu.ecc.de
IP address:	85.239.110.92
Login:	No change (please be advised that usernames will be case-sensitive)
Access:	ftps (Port 21) & sftp (Port 22)

Production

From 15 June 2016 onwards, the production FTP server will be already available and will also include all your files. Until 30 June 2016 both, the current and the new FTP server, will be accessible for you with the same files and reports.

Please note that ECC will disconnect the current FTP server on 30 June 2016 EOB.

The details for the production FTP server are:

Go-Live:	15 June 2016
Transition phase:	15 June – 30 June 2016
Address:	ftps.ecc.de
IP address:	85.239.110.88
Login:	No change (please be advised that usernames will be case-sensitive)
Access:	ftps (Port 21) & sftp (Port 22)
