

Decommissioning EUR SPAN file distribution

Since 7 November 2017 ECC offers a SPAN¹ parameter file where scanning ranges and settlement prices are shown in the product currency (e.g. EUR, GBP and USD).

For a transitional period, ECC has also made available the SPAN parameter file containing scanning ranges in EUR only.

As of **1 July 2018** ECC will decommission the distribution of the SPAN parameter file containing scanning ranges in EUR.

ECC requests all Clearing Members and Non Clearing Members to migrate any existing process to the currency specific SPAN parameter file until end of June 2018.
