

Polish Day-Ahead auction go-live date revised to 9 February 2021

Update

The **Multi-NEMO Arrangement (MNA) project in Poland** has entered its final stage with the successful completion of the last testing phase by the Transmission System Operator (TSO) and Nominated Electricity Market Operators (NEMOs) involved. However, project parties are working on completing their operational setup between each other. The MNA Poland parties have jointly agreed to revise the target date for the launch of the Polish Multi-NEMO Arrangement (MNA) to **9 February 2021**.

Therefore, the first trading day for the Polish MRC 12:00 CET Day-Ahead auction is scheduled for 9 February 2021 with delivery for 10 February 2021.

In line with the Multi-NEMO (MNA) project we will be able to offer Clearing Services in the Day-Ahead timeframe in Poland to further complete our one-stop-shop pan-European offer together with EPEX SPOT.

If you are interested in joining at market start, please provide the respective ECC TP Forms (TP_EPEX_Polish_03a/b) to memberreadiness@ecc.de until **04th February 2021 EoD** and completed [EPEX Trading Agreement Amendment \(TAA\) form](#).

For more information please refer to the ECC Clearing Circular 53/2020 Polish market on the ECC Website [here](#). Please feel free to also contact sales@epexspot.com or your key account manager and they will guide you through the process.
